

digiveyPLUS™

Smart online surveys without the hassle

DigiveyPlus Online Surveys

DigiveyPlus is the online survey module of CREOSO's Digivey Survey Suite. DigiveyPlus is offered as a hosted service you can subscribe to as well as a software license for your own server.

→ Easy Professional Online Surveys

Basic and advanced survey features make questionnaire design meaningful. Create multilingual questionnaires, add images, skipping, branching, randomization, ranking, piping...

→ Flexible Deployment

Deploy your surveys via a link in an email or via a link from your website. Place QR codes with the link to your survey on marketing materials.

→ Instant Reports 24/7

View results, charts and reports anytime from anywhere and download pre-formatted reports. Share survey data and reports with internal stakeholders.

→ Cloud-based

Benefit from the speed and scalability of a geographically independent cloud-based environment.

→ Mobile-Friendly

Your respondents can take the survey on any of their devices, from desktop to smart phone and their favorite browser.
